The game of Silliards muy be coasidered one of the most insefal, as it is the most fascinating of games. A good eye, a stoudy hand, judgment and practice, are the requirement- for excollence. At once graceful and amueling, it has its attractions for all classes of society.

To the merchani and professional mna, whose business is more or less seedcatary, it especially recommends itself—firstly, as a relaxation; secondly, for the exception which accompates it.

To the invalid and the hypochoadriact it is beneficial, as it serves as an abstraction from needless if not injurious trains of thought; and for the luvalid the exception of the server of the contraction of the contraction of the properties of the mediate, and almost nitrouse which accompates it.

A PHENOMENON IN MEDICINE Health Restored and Life I engthened. - 4 7-Dr. Morse's Invigorating Elixir or Cordial.

A T FIRST the properties attributed to Professor Morse's lawigers ting Blixt'er Cordiel were deeme hibitious. The public often deceived coeld not better the simple and sublime traths aumoanced by the di-coverer, but into makes bill facts, attend by wirabulous. The pablic often deceived coeld not believe the simple and sublime trains amonanced by the discoverer. but lucts, nudeciable facts, attended by witnesses of the highest class and character, are now triumphing over sil doubts. Increduitly is ovarthrown by a mass of testimony which is periectly irresistable. The Kilkir remedies, in alleases, the deplorable will arising from a misuse or ubnes of he various organishing the second of the various of the various of the vital power, it is recommended as the only means of commanicating that energy which is unconsent to the proper enjoyment of all the natural appetites, as wall as the higher mastal attributes. Its beneficial effects are not confined to other row or to any age. The ferbologier, the alling wife, the listless, enervated youth, the overworn man of suclasses, the victim of nervous depression, the individual antering from general decention, or from the weakness of a single ergan, will and immediate and permanent relief from the ass of this lacemparable renovuotr. To those who have pradisposition to paralysis, it will prove a complete radual failing safeguard against that terrible maindy. There are many perhaps, who have so trified with their coastitutions, that they intuit themselves beyond the reach of medicine. Let not even these deepsit. The Elixi deals with disease as it exists, without reference to causes, and will not only semons the despite.
